Event Details

Welcome to the Global Hope Summit! We are excited to have you join us on this journey which we know will help empower you with the skills to shift the conversation in the world to one of Hope and Moving Humanity Forward.

We are doing something a little bit different with this live event. Since our goal is to provide Hope to people for 2020 and Beyond, we are meeting you where we are all already having conversations... on social media.

Our Event will be live-streamed across multiple social media channels and you can join in with the other attendees to chat during the event on your preferred platform. In fact, we encourage it! Some of our speakers will also be there to continue to create conversations that move humanity forward. We'll be streaming live into our Facebook Group as well as on YouTube and other platforms. Make sure you connect with us on your preferred platform below.

The Team

I want to give a big thank you to all of our speakers, ambassadors, and all of our attendees that made this event a reality. In addition, there was a group of incredible people working behind the scene that I want to acknowledge. These people showed up in an incredible way to help support the summit and without all of them, this summit wouldn't have happened. So give them a big thank you yourself if you see them on social media. ❤️
